Goodman®

Air Conditioning & Heating

A COMFORTABLE VALUE

When selecting a gas furnace for your home, you are often searching to find the best combination for an ideal level of home comfort. You want to find a gas furnace that offers exceptional, dependable, and stable performance for many, many years. Most importantly, you want the best value possible. Faced with the decision to find a trustworthy and reliable gas furnace that delivers quiet, energy-saving operation and outstanding long-term value, the Goodman® brand GCVC9/95 gas furnace may be your best option. The gas furnace in your home provides not only heating comfort, but it operates with your central air conditioner to deliver cool comfort too. So your final choice is doubly beneficial. Whether it's the coldest day of the year or any day of the year, with the Goodman GCVC9/95 Gas Furnace you'll be saying, "Thank goodness for Goodman.®"

ENJOY THE COMFORT AND EFFICIENCY

Goodman's GCVC9/95 High Efficiency Gas Furnace with two-stage heating and a variable-speed circulating blower provides efficient and economical performance. Unlike single-stage gas furnaces that operate 'all on' or 'all off,' a Goodman brand variable speed gas furnace typically runs up to 90% of the time in the low-speed capacity on most days. But when the temperature outside is frightfully cold, this furnace quietly ramps-up to high-speed capacity to deliver all the warm, comfortable heat your home needs.

When operating at low-speed levels, your Goodman brand gas furnace consumes less energy to keep your home comfortable. In addition, the GCVC9/95 furnace's 93% to 95% AFUE rating on this gas furnace means that 93 to 95 cents of every \$1.00 of heating energy expense warms your home. Some older central heating systems are rated at 60% AFUE. The Department of Energy (DOE) established the AFUE (Annual Fuel Utilization Efficiency) system to calculate the annual operating cost of residential gas furnaces.

The Goodman brand GCVC9/95 Gas Furnace is ComfortNet™ compatible. Homeowner benefits of this system include advanced diagnostics, automatic maintenance alerts, and continuous monitoring of the system's performance.

THE HEART OF COMFORT

The award-winning design of the primary heat exchanger in the Goodman brand GCVC9/95 is unique. It's constructed from tubular aluminized-steel and formed into a dual diameter configuration. Furthermore, the use of wrinkle-bend technology results in an extremely durable heat exchanger. A heat exchanger often is considered the essential component of any gas furnace. Additionally, this gas furnace has a stainless-steel secondary heat exchanger. This combination offers one of the best levels of reliability, durability, and efficiency you'll find within the Goodman brand.

IMPRESSIVE FEATURES AND BENEFITS:

GOODMAN® BRAND GCVC9/95

VARIABLE-SPEED GAS FURNACE

- ComfortNet™ Communicating Systems Compatible
- Aluminized-Steel Tubular Primary Heat Exchanger; Stainless-Steel Secondary Heat Exchanger
- Durable Silicon Nitride Igniter
- Electronic Control Board with Self-Diagnostics
- Auto-Comfort Mode for Enhanced Dehumidification
- Efficient, Quiet Variable-Speed Circulator Motor
- All Models Comply with California NOx Emissions Standards
- Corrosion-Resistant Vent Blower
- Fully Insulated, Heavy-Gauge Steel Cabinet with Durable Baked-Enamel Finish
