IDB (por sus siglas en inglés): Temperatura de entrada indicada por termómetro de bulbo seco de interior kW = Potencia total del sistema Amps = outdoor unit amps (comp.+fan)

La superficie sombreada representa las condiciones de la Asociación de Contratistas de Aire Acondicionado de los Estados Unidos (ACCA, por sus siglas en inglés) (TVA)

La presión alta y la presión baja se miden a la altura de las válvulas de servicio de conducto líquido y de aspiración. Amps = amperes de la unidad de exterior (compresor + ventilador)
