

Air Conditioning & Heating

THE AMERICAN RECOVERY AND REINVESTMENT ACT (ARRA) OF 2009

TAX CREDITS FOR HOME HEATING EQUIPMENT

CERTIFICATION OF HOME HEATING EQUIPMENT CONTAINING AN ADVANCED MAIN AIR CIRCULATING FAN

THIS CERTIFICATION IS MADE PURSUANT TO SECTION 25C OF THE INTERNAL REVENUE CODE ***

NAME AND ADDRESS OF MANUFACTURER:

GOODMAN MANUFACTURING COMPANY, L.P.

5151 SAN FELIPE, SUITE 500 ◊ HOUSTON, TX 77056 ◊ WWW.AMANA-HAC.COM

The products listed below are advanced main air circulating fans that account for no more than 2% of a furnace's total energy use and meet the definition of "Qualified Energy Property" in Section 25C of the Internal Revenue Code (IRC).***

If the products listed below are installed together with a natural gas, propane, or oil furnace that also meets the definition of "Qualified Energy Property" in Section 25C of the IRC in the homeowner's primary residence and placed in service between January 1, 2009, and December 31, 2010, then the homeowner may qualify for a non-refundable tax credit under Section 25C of the IRC, as amended by the American Recovery and Reinvestment Act of 2009. The amount of the credit is capped at 30% of the installed cost of both the advanced main air circulating fan and the natural gas, propane, or oil furnace, up to \$1,500.

If the products listed below are installed together with a natural gas, propane, or oil furnace that does not meet the definition of "Qualified Energy Property" in Section 25C of the IRC, then the homeowner may still qualify for a non-refundable tax credit under Section 25C of the IRC, as amended by the American Recovery and Reinvestment Act of 2009, provided that the advanced main air circulating fan and natural gas, propane, or oil furnace were installed in the homeowner's primary residence and placed in service between January 1, 2009, and December 31, 2010. Under these circumstances, however, the homeowner may only receive a non-refundable tax credit for the installed costs of the advanced main air circulating fan, not the natural gas, propane, or oil furnace. Advanced main air circulating fans and natural gas, propane, or oil furnaces are usually installed at the same time and not separately invoiced, so the homeowner may estimate the installed costs for the advanced main air circulating fan as 8.7% of the installed cost of both the advanced main air circulating fan and the natural gas, propane, or oil furnace, in order to claim the non-refundable tax credit.

Qualifying Products (check only the model(s) that applies to your installation):

Table with 4 columns: Model Number, checkmark, Install Date, AFUE. Rows include GCVC90704CX, GCVC90905DX, GCVC91155DX, GCV90704CX, GCV90905DX, GCV91155DX.

Table with 4 columns: Model Number, checkmark, Install Date, AFUE. Rows include GME80703BX, GME80704BX, GME80905CX, GME81155CX, GMVC80704BX, GMVC80905CX, GMVC81155CX.

Under penalties of perjury, I declare that I have examined this certification statement, and to the best of my knowledge and belief, the facts presented are true, correct, and complete.
