GSXC18
AIR CONDITIONER
HIGH-EFFICIENCY
UP TO 19 SEER PERFORMANCE
Next Generation Copeland Scroll® Two-Stage Compressor

At Goodman, we believe in American dependability. Units are designed, engineered and assembled in the U.S.A.
The best air conditioner is the kind you don’t have to think or worry about. It comes on the moment you need it and then runs quietly and efficiently all year long as needed. The **Goodman** GSXC18 is loaded with features designed to provide outstanding performance for years to come. We use advanced techniques and materials so you know the cozy, even temperature you feel in every corner of your home is an energy-efficient trend that’s designed to stay for many years.

**Goodman will keep you cool as a cucumber.**

**Don’t let high utility bills make you lose your cool.**

Our complete line of air conditioners are priced to help add comfort to your budget from a local independent **Goodman** brand dealer. And that’s only the beginning. We want you to smile every time you open your utility bill, so we design energy-efficient technology into our units.

**Taking pride in our company heritage.**

**Goodman** brand heating and cooling systems are designed to provide refreshingly affordable and energy-efficient indoor comfort solutions using advanced technology. But the company ultimately adheres to some old-fashioned values, too. **Goodman** believes in the integrity of the American worker. That’s why **Goodman** brand heating and cooling systems are designed, engineered and assembled in the United States.

**Experience reliable indoor comfort for everyone in your home year after year after year.**

**Goodman**

Air Conditioning & Heating
A LOT GOES INTO EVERY GOODMAN BRAND
GSXC18 AIR CONDITIONER

The art of precision

**Next Generation Copeland Scroll™ Two-Stage Compressor** – Designed with fewer moving parts and consuming less energy compared to reciprocating compressors, the compressor uses chlorine-free R-410A refrigerant and will provide years of reliable cooling comfort. The compressor provides enhanced performance with revolutionary two-step capacity design. At lower speed the unit runs longer to help reduce indoor humidity and supports consistent indoor temperature control. The higher speed provides full cooling capacity on the hottest days of the year. Combined, both speeds help deliver steady and consistent cooling compared to single-speed compressors.

**ComfortBridge™ Technology** – Continuously monitors system performance for customized indoor comfort.

**The CoolCloud™ HVAC app** – Enables qualified technicians to connect, configure and diagnose select HVAC systems quickly and accurately.

**Goodman air conditioners simply work the way they’re supposed to, making each one a thing of beauty.**

**High-Efficiency Two-Speed ECM Condenser Fan Motor** – With advanced fan design, it provides dependable, quiet airflow across the condensing coil.

**ComfortAlert™ Diagnostics** – Advanced diagnostics constantly monitor your air conditioner system, reducing failures and pinpointing trouble spots for a fast fix.

**Heavy-Gauge, Galvanized Steel Enclosure Cabinet** – A louvered cabinet protects the coil, while its appliance-quality, post-paint, baked enamel finish protects your system from outdoor elements.

**Factory-Installed In-Line Filter Drier** – Protects the refrigerant system from dirt and moisture for longer service life compared to units without filter driers.

**Quiet Operation** – An acoustically engineered sound control blanket helps reduce noise levels compared to units without sound control blankets.

Thank goodness for Goodman.
COUNT ON OUTSTANDING LIMITED WARRANTY* PROTECTION

* Complete warranty details available from your local dealer or at www.goodmanmfg.com. To receive the 10-Year Unit Replacement Limited Warranty, Lifetime Compressor Limited Warranty (good for as long as you own your home) and 10-Year Parts Limited Warranty, online registration must be completed within 60 days of installation. Online registration is not required in California or Quebec.

When your current air conditioner breaks, it’s good to know that your local, independent Goodman brand contractor has financing options available to help defray what might be considered an emergency purchase for your home.

Proper sizing and installation of equipment is critical to achieve optimal performance. Split system air conditioners and heat pumps must be matched with appropriate coil components to meet ENERGY STAR® criteria. Ask your contractor for details or visit www.energystar.gov.

PERFORMANCE

UP TO 19 SEER

“SEER” stands for Seasonal Energy-Efficiency Ratio, which is a measurement of a air conditioner’s cooling efficiency developed by the U.S. Department of Energy. It’s a simple formula: the higher the SEER of your unit, the greater its efficiency – and the lower your operating costs.
Independent, dependable, courteous, prompt, honest, highly-skilled and respectful of you and your home. That’s why all the time homeowners say, “These guys are good – really good.”

Many of your neighbors may have discovered that a reliable and energy-efficient home comfort system doesn’t have to cost a fortune. Goodman brand whole-house systems feature many of the latest and greatest money-saving technology benefits that we can offer. They are designed and engineered to run quietly and pretty much worry-free.

Why does Goodman have such a large fan base?
